Highly motivated Computer Science graduate with hands-on experience in cloud infrastructure, system configuration, and technical support. Strong communication skills, collaboration, and time management.

WORK EXPERIENCE

Stericycle   Bannockburn, IL
IT Infrastructure Engineer Intern   Internship 2024

- Contributed to IT operations during the $7.2 billion acquisition. Created, cloned, and configured cloud servers with compliance with security protocols and lab requirements.
- AWS Management Console: Technical support resolving AWS Workspaces tickets regarding user account issues to maintain global operations.
- VMWare Cloud Director: Managed and optimized multi-cloud infrastructure, including server creation, cloning, and configuration, ensuring strong and scalable environments.
- vSphere Client: Monitored server performance, accessed VM servers remotely, conducted regular backups, and provided cloud infrastructure support and troubleshooting
- Oversaw AWS Server Migration Project: Migration of cloud servers from Lumens to AWS cloud, ensuring seamless and minimal downtime
- Supported cloud-based application development and IT infrastructure operations

CDW   Vernon Hills, IL
Technology Configurator   Internship 2023

- Installed and configured large scale software and hardware components
- Configured and optimized customer systems to requirements: Universities, fast food, small businesses
- Verify component compatibility and release orders, maintain daily & monthly productivity target goals

Unique Walls and Floors Construction   Chicagoland
Walls & Flooring Setter / Project Manager   2017 - 2024

- Perfected intricate flooring and wall designs & maintained a high level of performance and deadlines
- Project managing tasks and teams by implementing new team strategies to enhance efficiency in a fast-paced on-site environment.

EDUCATION

Lewis University | Bachelor of Science | Computer Science | GPA 3.71

College of DuPage | Associate of Applied Science | Software Development

Coursework: Java, JavaScript, Python, HTML, CSS, XML, Linux, Unix, SQL, Databases, Adobe, Windows, Microsoft Suite 365, Systems Analyst Simulation (16-week project scheduling, designing, implementation, development, testing, and application.)

SKILLS

AWS Management Console Workspaces, VMWare Cloud Director, vSphere Client, Tickets, Active Directory, Troubleshooting, Virtual Machines, SQL Server Management Studio, Cloud & Server Configuration.

Certificates: College of DuPage Java Language 2022 | Microsoft 365 Access Expert 2023
Interests: Cloud Computing, Soccer, Golf, Kayaking, Hiking, Fishing, UFC, Traveling.
                                                                          References available upon request.
